## External network access

OK

Nice, no external network access detected.

## Heading structure

OK

Great, the heading structure is perfect.

## Resource load errors

OK

37 requests are made, that is good. All resources load as expected.

## Semantic HTML tags

WARNING

No structural semantic tags found. Consider adding some.

## Total page size and big resources

OK

Total page size of 503.9 KB is good. No big resources found.

## Test descriptions

### Cookies without consent

Finds cookies, that are stored without user consent.

### External network access

Searches for network access to external servers.

### Heading structure

Checks whether the heading structure is valid.

### Resource load errors

Searches for resources that do not load.

### Semantic HTML tags

Checks usage of structural semantic HTML tags, which are good for accessibility and SEO.

### Total page size and big resources

Finds large resources and checks total page size, which notably influence page load time.
